AFSAC

[AFSAC Online Home](#) | [Business Applications](#) | [Feedback](#)

**Air Force Security Assistance Center**  
Wright Patterson AFB, Ohio 45433

### A01, A02 & A04 Requisition Mass Upload

<input type="text"/>	<input type="button" value="Browse..."/>
<input type="button" value="Upload File"/>	<input type="button" value="Clear File Name"/>

This process allows the user to upload a group of requisitions to SAMIS via AFSAC Online. These requisitions will NOT go to your shopping cart but will be transmitted directly to SAMIS. The only edits performed on the upload are to make sure the requisition is an A01, A02 or A04 and the user has authority to submit for a particular country. Within a few minutes you should receive an e-mail showing the rejected records and the number of records that were accepted. You can then correct the rejected requisitions and resubmit. SAMIS edits will be performed during overnight processing and you can check the status the next day by using the Open Document Number Query or the Requisition History interrogation (Part of the Application Suite).

1. Ensure your requisitions are in the proper 80 column MILSTRIP format and saved as a text file or an Excel ".prn" (space delimited format) file. Click here for sample requisition formats. [A01](#) - [A02](#) - [A04](#)

2. Upload the file by clicking the "Browse" button above and locating the file on your hard drive. Select the file and press the "Upload File" button.

**You may download mass requisitions from a text file or an Excel '.prn' (space delimited format) utilizing the 80 column MILSTRIP format for the appropriate document identifier (A01, A02, and A04). Note that requisition formats are provided via hyperlinks.**
